INTRODUCING THE AVALON FUND

DISCOVERING A DEEPER STRENGTH

The Avalon Fund is a partnership between The Marcus Institute of Brain Health (MIBH) and Boulder Crest. The Fund's mission is scaling innovative and effective Traumatic Brain Injury (TBI) and Posttraumatic Stress Disorder (PTSD) treatments to ensure veterans receive the care and training they need to accomplish great things at home.

HELPING INJURED WARRIORS COME BACK BETTER THAN EVER

In Arthurian legend, Avalon was the sanctuary where King Arthur was taken to heal physically and spiritually after being wounded in battle. From there, he would return to lead his people into a new golden age. We're guided by the belief that there's no limit to what combat veterans can accomplish when properly healed.

The status quo is failing our veterans

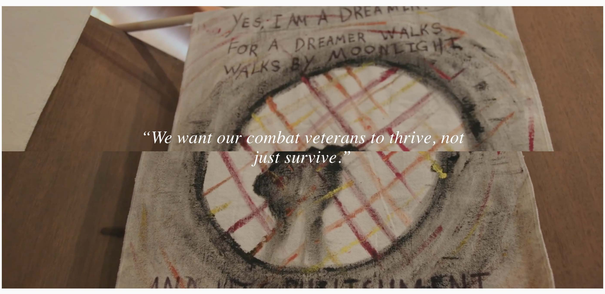
Of the 2.8 million military personnel deployed to war zones since 2001, 900,000 are struggling with TBI and PTSD. Every single day we lose 20 veterans to suicide. These harrowing numbers reflect a treatment system that's lacking.

REVIEW OUR CAUSE

Joining forces to forge a new approach

MIBH and Boulder Crest are at the forefront of healing the invisible injuries of war. Their innovative and effective approaches can transform the treatment landscape.

DISCOVER OUR WORK



"We want our combat veterans to thrive, not just survive."

From struggle comes strength

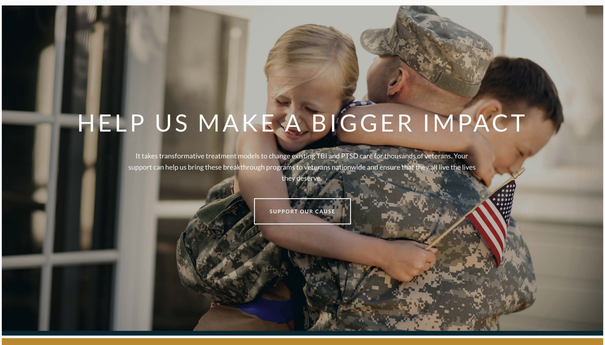
Traumatic experiences can serve as the fuel for growth and transformation. This principle lies at the core of our TBI and PTSD treatment methodologies.

EXPLORE OUR METHODS

Going further for veterans wherever they are

The Avalon Fund aims to create *the first* nationwide, integrative TBI and PTSD treatment network by 2023. We're inviting investors to join our ranks and shape the future of the Fund.

LEARN ABOUT OUR PLAN



HELP US MAKE A BIGGER IMPACT

It takes transformative treatment models to change everyone's TBI and PTSD care for thousands of veterans. Your support can help us bring these breakthrough programs to veterans nationwide and ensure that they live the lives they deserve.

SCALING APPROACHES THAT WORK

The Marcus Institute of Brain Health and Boulder Crest spent years identifying gaps in existing Traumatic Brain Injury and Posttraumatic Stress Disorder treatment models. Using that knowledge, they created revolutionary programs to go beyond those offered in other settings. The Avalon Fund will expand these proven programs and deliver results which far exceed traditional treatments.

STATE-OF-THE-ART TREATMENT FOR TRAUMATIC BRAIN INJURIES

The MIBH's purpose is helping veterans get better. Its specialty clinical plans use the latest techniques and give veterans the individualized TBI treatment they need. The MIBH's Executive Director, Dr. James Kelly, is a pioneer in integrated care models for service members with TBI. Under his leadership, the MIBH's care model has delivered remarkable clinical results including:

95%
IMPROVEMENT IN QUALITY OF LIFE AFTER INTENSIVE OUTPATIENT PROGRAM

95%
DEGREE OF CHANGE IMPROVEMENTS AFTER INTENSIVE OUTPATIENT PROGRAM

88%
SUSTAINED IMPROVEMENT IN QUALITY OF LIFE*

88%
SUSTAINED DEGREE OF CHANGE IMPROVEMENTS*

*1 month later
Results based upon Patient Global Impression of Change (PGIC) data

"In just two days, Warrior PATHH makes breakthroughs that would take the average medical model 12 to 14 months."

— Dr. Bret Moore, twice-deployed former army psychologist

Training veterans to transform struggle into strength

In addition to founding two, privately funded centers for veterans and their families, Boulder Crest created Warrior PATHH, the first-ever program designed to cultivate Posttraumatic Growth (PTG). Warrior PATHH provides intensive training that ensures combat veterans can live great lives at home. It has delivered results 2 to 3 times better than traditional treatments.

YOUR SUPPORT WILL MAKE A MAJOR DIFFERENCE

While the MIBH and Boulder Crest's efforts have helped hundreds of veterans, thousands more need access to adequate treatment. Your support can help us bring breakthrough programs to veterans nationwide and ensure that they all live the lives they deserve.

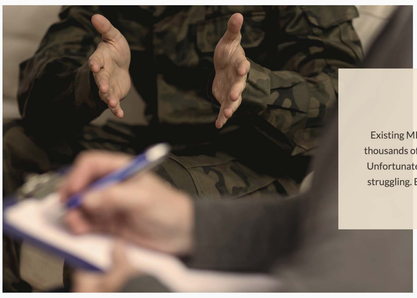
MISSION: 2023

The Avalon Fund seeks to replicate and expand the Marcus Institute for Brain Health and Boulder Crest successes and create *the first* nationwide, integrative Traumatic Brain Injury and Posttraumatic Stress treatment network by 2023.



Thousands of Veterans Need Our Help

Existing MIBH and Boulder Crest facilities are not enough to help the hundreds of thousands of veterans affected by Traumatic Brain Injuries and Posttraumatic Stress. Unfortunately, our capacity today only allows us to help a small percentage of those struggling. Establishing this $200 million Avalon Fund will help us scale and support thousands more in need.

OUR 5-YEAR PLAN

If we want to help the hundreds of thousands of veterans currently suffering with TBI and PTSD, we have to be where they are. Having a presence in only 3 states hinders that objective. That is why our plan calls for creating 20 total facilities across the country, situated near the areas most affected by this crisis.

2018
+ 1 MIBH SITES
+ 2 BOULDER CREST SITES

2019
+ 2 NEW MIBH SITES
+ 2 NEW BOULDER CREST SITES

2020
+ 2 NEW MIBH SITES
+ 2 NEW BOULDER CREST SITES

2021
+ 2 NEW MIBH SITES
+ 2 NEW BOULDER CREST SITES

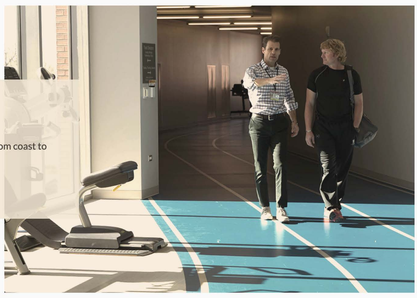
2022
+ 2 NEW MIBH SITES
+ 2 NEW BOULDER CREST SITES

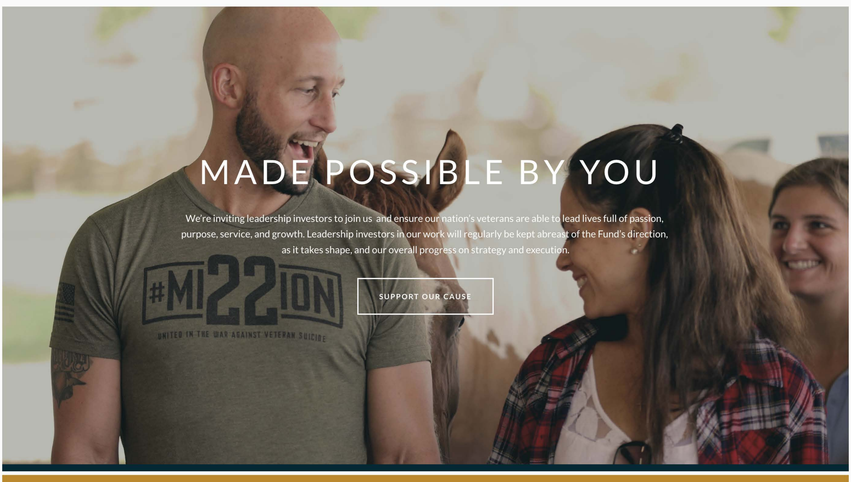
2023
+ 1 NEW MIBH SITE
TOTAL 20 SITES IN NETWORK

A truly national network

By 2023, a comprehensive integrative network of 20 facilities spread from coast to coast will serve over 10,000 veterans and their families.

And that's only in the first 5 years.





MADE POSSIBLE BY YOU

We're inviting leadership investors to join us and ensure our nation's veterans are able to lead lives full of passion, purpose, service, and growth. Leadership investors in our work will regularly be kept abreast of the Fund's direction, as it takes shape, and our overall progress on strategy and execution.
